W. Robinson 1

Research Papers

Nannostructure and genesis of phosphorites from ODP Leg 112, the Peru margin
M. Lamboy 5

Suspended sediment transport and the role of infragravity waves in a barred surf zone
T. Aagaard and B. Greenwood 23

Origin and variability of sedimentary facies of the Fraser River delta foreslope, British Columbia
R.W. Evoy, T.F. Moslow, R.A. Kostaschuk and J.L. Luternauer 49

Across-shelf benthic transports on the inner shelf of the Middle Atlantic Bight during the "Halloween storm" of 1991
L.D. Wright, J.P. Xu and O.S. Madsen 61

Late Quaternary pollen transport processes, western North Atlantic: Data from box models, cross-margin and N–S transects
P.J. Mudie and F.M.G. McCarthy 79

Paleohydrology and paleoclimatology off Northwest Africa during the last glacial–interglacial transition and the Holocene: Palynological evidences
F. Marret and J.-L. Turon 107

Clastic components in Quaternary sediments of the northwest Pacific and their paleo-oceanic significance
V.P. Nechaev, A.V. Sorochinskaya, I.B. Tsoy and S.A. Gorbarenko 119

Gravity and magnetic modelling of the Hikurangi Plateau
B. Davy and R. Wood 139

The Hikurangi Plateau
R. Wood and B. Davy 153

Addendum 175

Letter Section

Geology of young submarine volcanoes west of Easter Island, Southeast Pacific
P. Stoffers, R. Hékinian and K.M. Haase 177

Seasonal variation in an annually-banded coral *Porites*: A scanning electron microscopy investigation
S.A.S. Naqvi 187

Research Papers

Temporal and spatial relationship between sediment grain size and beach profile
R. Medina, M. A. Losada, I. J. Losada and C. Vidal 195

Sediment transport along the Goa-north Karnataka coast, western India
P.D. Kunte 207

Nature and tectonic setting of the southern Kermadec submarine arc volcanoes: An overview
I.C. Wright 217

SeaBeam and deep-sea submersible *Nautile* surveys in the Chiclayo canyon off Peru (7°S): subsidence and subduction-erosion of an Andean-type convergent margin since Pliocene times
M. Sosson, J. Bourgois and B.M de Lépinay 237

Cenozoic margin development and erosion of the Barents Sea: Core evidence from southwest of Bjørnøya
J. Sættem, T. Bugge, S. Fanavoll, R.M. Goll, A. Mørk, M.B.E. Mørk, M. Smelror and J.G. Verdenius 257

Identification and origin of a subsurface ridge on the continental margin of western India
K.S. Krishna, G.P.S. Murty and D. Gopala Rao 283

Hydrothermal activity as recorded by Red Sea sediments: Sr–Nd isotypes and REE signatures
A. Cocherie, J.Y. Calvez and E. Oudin-Dunlop 291

Pyrite with high Mn content from the Mankai Trough formed from subduction-induced cold seepage
N. Shikazono, M. Nakata and E. Tokuyama 303

New uranium-series ages of the Waimanalo Limestone, Oahu, Hawaii: Implication for sea level during the last interglacial period
D.R. Muhs and B.J. Szabo 315
210-Lead dating of a modern period saltmarsh deposit from the Severn Estuary (Southwest Britain), and its implications
P.W. French, J.R.L. Allen and P.G. Appleby 327

Book Reviews
Landscape Sensitivity by D.S.G. Thomas and R.J. Allison—W.W. Hay 335
Climate Modes of the Phanerozoic by L.A. Frakes, J.E. Francis and J.I. Suktus—W.W. Hay 336
